1. A brief (~2-3 sentences) summary of your project. Many of your TAs are managing multiple projects so this will help them remember details about your project. You can reuse the summary from milestone 2.

Our project simulates a crowdfunding platform. In this platform, organizations can create projects that individuals can support through financial contributions—they may also receive a reward for their donation. Each organization can make dedicated posts for any particular project they own and any type of account can comment on these posts.

2. Timeline and task breakdown/assignment: The deliverables from milestones 1 and 2 have been added to the repository

Task	Who?	By when?
Setup SQL database (run DDL script) + make sure the backend can connect to it. Everyone's environments are set up.	Everyone	November 3rd.
Endpoints for creating an account.	Everyone	November 13th.
Done if: - Endpoints: - Create individual - Create organization - Login		
Do the frontend for creating an account and logging in.	Everyone	November 13th.
Done if: - Can create an individual account - Can create an organization account - Can login and see some main (blank) page		
Do the frontend main page and navigation bar.	Andrew	November 14th.
Done if: - Should display navigation items: Projects, Account - Should be able to see this main page (can be empty) after logging in		
Do the endpoints for the account information page.	Ben and Cam	November 24th.
Done if: - Endpoints:		

- Get account info (individual and organization) - Get rewards received for that given individual - Get contribution history for that given individual - Edit their account info (individual and organization) - Get reward issued for that given organization - Get contributions received history for that given organization - For individual payment info: - Create new payment info - Delete payment info - Edit payment info - Edit payment info - For organization: - Get list of rewards - Create a reward - Delete a reward - Delete a payment tiers - Create a payment tier - Delete a payment tier - Donation history - Individual page: - Account Info (name, email, etc) - Reward history - Donation history - Button and form for editing their account info - Payment info - Payment info - Payment info form - Create rewards - Button and form for creating and deleting rewards - Button and form for creating and deleting rewards			Г
